

**Report #: 7**  
**Date: 3/27/2022**

**Project Name: Rust Cleaners**  
**Prepared by:** Arsh Kabarwal, Olivia Ornelas, Kipp Corman, Joseph Carpman

### **Agenda for the weekly meeting**

1. Display the line highlighter functionality
2. Go over deliverables for the next week
3. Talk about other potential features that could be added

### **Accomplishments during this period**

1. Frontend prints the results from cargo audit and clippy
2. Added file upload option
3. Worked on function to highlight lines to display errors
4. Results and submission information is separated on frontend
5. Separated script to two different scripts

### **Plans for the next period**

1. Start on integrating Soteria as a tool
2. Continue formatting the frontend for the user interface
3. Have filetree menu displayed as a column and the file displayed in the center
4. Create a plan for and start gathering feedback from potential users

### **Project management status**

1. Worked independently through the week with a 2hr meeting on Sunday.
2. Divided tasks for the week.
3. Updated gantt chart with weekly progress.
4. On schedule.

### **Minutes from meeting with professor**

Prioritize front end

Could be an issue with multiple errors on the same line

Use consumer feedback to see potential users
