

**Report #:** 10  
**Date:** 4/17/2022

**Project Name:** Rust Cleaners  
**Prepared by:** Arsh Kabarwal, Olivia Ornelas, Kipp Corman, Joseph Carpman

### **Agenda for the weekly meeting**

1. Display progress
2. Go over deliverables for the next week
3. Discuss most important features to add before demo

### **Accomplishments during this period**

1. Integrated AWS Simple Email Service API to automate emails
2. Implemented another tool on the backend: Mirai
3. Continued working on UI
4. Worked on running tools on file upload but not completed
5. Improved frontend display of code warnings and package warnings

### **Plans for the next period**

1. Deploy website on AWS
2. Get approval to get out of restricted sandbox
3. Implement code highlighting on mirai
4. Improve front-end for best possible user experience

### **Project management status**

1. The team worked more independently to get allocated tasks done
2. Divided tasks for the week.
3. Updated gantt chart with weekly progress.
4. On schedule.

### **Minutes from meeting with professor**

Displayed the demo with updated functions
